MACA members enjoy unique experiences through networking with industry leaders and access to the latest resources, resulting in sound decisions for the future of Midwest Agriculture.
By joining MACA, you will gain access to HAZMAT training videos and updated safety program which may be used for the Department of Transportation (DOT) General Awareness-Function specific to HAZMAT chemicals used in the agricultural industry. Below you will find a glimpse into general awareness and function specific training that MACA provides to its members at no charge ($250 for non-members).

HAZARDOUS MATERIALS GENERAL AWARENESS

The Pipeline and Hazardous Materials Safety Administration of the Department of Transportation (DOT) has developed HAZMAT regulations governing the transportation of HAZMAT in order to protect people, property, and the environment.

Increase your awareness of safety considerations involving loading, unloading, handling, storing, shipping, paper preparation, marking, labeling, placarding, emergency preparedness, security awareness, transportation of hazardous materials, and so much more!

HAZARDOUS MATERIALS SHIPPING PAPERS
